

SUMMER

CHALLENGE

Dear Families,

Summer math practice provides an opportunity for your child to review the skills learned this school year. Ongoing math practice helps students retain concepts better, enhances their performance and prepares them for the next grade level. ***We will be utilizing MobyMax, a free online learning tool with individualized lessons and feedback*** for our summer math assignments. This program has tracking and feedback tools for parents (with a parent login feature) and teachers. Attached you will find detailed instructions for how your student can login to their MobyMax account and the expectations for completed lessons.

All students are expected to complete the work, independently, to the best of their ability. Incoming 1st Grade students may require assistance with learning how to use the program features (i.e. pressing the speaker icon to have the answer choices read, how to use the delete key on the keyboard to erase incorrect answers, etc.) but should not receive help answering questions. MobyMax will adjust to your child's current level and reteach lessons until your child is ready to move on to the next skill/concept. Assisting your child by providing answers will not be to his benefit. Students have already been enrolled into my class online and I will be able to track their progress throughout the summer. At the beginning of the year, students will participate in a "Beginning of the Year" Assessment which will be based off the summer math program.

If you have any questions, please do not hesitate to email me at maryjane.schmitt@spsjax.org.

Have a great summer!

Ms. Schmitt

Student Login to MobyMax

1. Using an internet browser, visit www.mobymax.com
2. Click “Sign In” in top right corner
3. Click “Sign in as a Student”
4. Use school code: **FL5748**
5. Login with the following:
 - a. **Username:**
firstname.lastname (we used the first name your child is called at school)
 - b. **Password:** abc123
6. Click on the bookshelf icon.
7. Select “Math” to gain access to the summer math lessons

Parent Login to MobyMax

1. Using an internet browser, visit www.mobymax.com
2. Click “Sign In” in top right corner
3. Click “Sign in as a Parent”
4. Use same login information as student
5. First page gives overview of student’s progress and work in MobyMax
6. Select “Math” to gain more detailed reporting on student’s math work

1st Grade MobyMax Requirements:

Students should complete at least 8 full lessons. Some lessons have several parts which may take multiple sessions to complete. Parents can check their child’s progress by logging in as a parent.
